Intellect Young Professionals' Network

Young professionals, tomorrow's leaders...

Charter

About Intellect

Intellect is the trade association for the UK technology industry. Intellect provides a collective voice for its members and drives connections with government and business to create a commercial environment in which they can thrive. Intellect represents over 800 companies ranging from SMEs to multinationals. As the central hub for this networked community, Intellect is able to draw upon a wealth of experience and expertise to ensure that its members are best placed to tackle challenges now and in the future.

Young professionals, tomorrow's leaders...

It takes a lot to get ahead in today's competitive market, and young business people want to make their mark early.

This program from Intellect has been developed to engage and introduce young professionals to the industry's vast resources and opportunities. The network is not just about targeting the 'top talent' within organisations but is open to all young professionals, recognising they are all important contributors to the workplace and our future.

The network seeks to develop young professionals across all markets and offers an environment to network, socialise, share experiences, learn and have fun.

Who are we?

The Intellect Young Professionals' Network is an exciting initiative for all young professionals in the technology industry and connected industries. We encourage both major corporate and SME members to get involved to share ideas, aspirations and experiences between organisations both in and out of the network meetings.

The management committee comprises a lively mix of young professionals from all areas of business and seeks to involve as many perspectives as possible.

Objectives

The Intellect Young Professionals' Network's objectives are to:

- ▶ provide a voice for young professionals
- ▶ facilitate an environment for personal development and improved career opportunities
- ▶ promote the benefits of a co-operative and working relationship between all businesses, levels and roles
- ▶ enable members to improve business performance and business practices
- ▶ enable members to understand their markets and other industries through peer networking

Activities

We support our activities through:

- ▶ regular networking opportunities
- ▶ discussion forums
- ▶ evenings with industry leaders and professionals
- ▶ collaboration across groups and organisations
- ▶ the Intellect Young Professionals' Network group on Facebook www.facebook.com and LinkedIn www.linkedin.com
